FAQ

Can I pursue the Post Matric course while concurrently enrolled in regular studies?

While it is technically possible, we advise against it. Learners undertaking a subject for the first time typically experience a substantial workload.

I didn't do Maths or Science in Grade 12; can I enrol in these subjects now?

Certainly! You have the flexibility to take as many new subjects as you desire. Somerset West Private School offers the option to cover Grade 10, 11, and 12 content within a single year. You can also re-do as many subjects as you like.

Do I have to come in and attend class?

Depending on your work ethic, there may be an option to complete the subjects online. However, we have observed more gratifying outcomes when students consistently attend daily classes. Each student is provided with a personalized timetable that must be adhered to, with class times typically scheduled from 08:00 to 13:00, depending on your chosen subjects.

Is wearing a school uniform mandatory?

No, students at Somerset West Private School are not obligated to wear a school uniform. Nevertheless, we do anticipate that our students dress appropriately and maintain a presentable appearance.

When should I apply to the university?

The application process takes place during your Post Matric year, concurrently with other Grade 12 students. You'll need to submit your Grade 11 results, your Term 2 Post Matric report, and a reference letter from our institution.

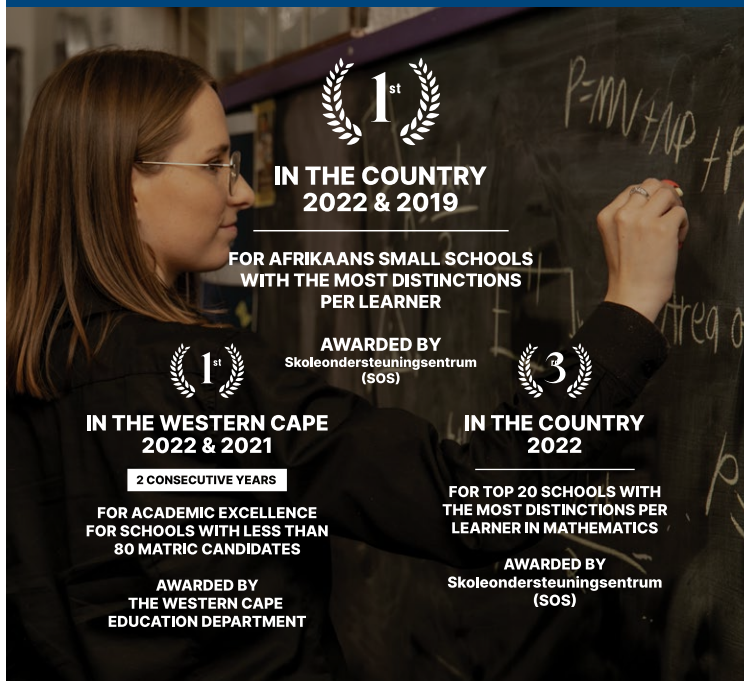

I didn't take the IEB Exams; can I still enrol?

Absolutely, that's not an issue. At the end of the year, you'll sit for the IEB NSC Examination at our institute.

PUBLIC SPEAKING WINNER

Accepted to study BAcc at Stellenbosch University

My name is Ashley Malcolm and I attended Somerset West Private school in 2024. I joined the school hoping to achieve better marks in my history and afrikaans and also to start mathematics from scratch. I had previously done maths lit and strongly believed that pure math just wasn't for me but I was encouraged by my parents to give it a go. In the beginning everything was terrifying and the learning was slow. I was pushed by the school and by my teachers and really gave the whole experience my all. I managed to achieve so much more then I had ever imagined for myself. When I received my marks I nearly cried. So overwhelmed with joy, all the hard work and dedication I had put in had finally come to fruition. Somerset Private gave me my confidence back in terms of my learning abilities and showed me and hard work really does pay off. I recently got accepted to Stellenbosch University to study Accounting (BAcc). I am just so happy with how things turned out.
